## How to write a paper

Your company is organizing a **satellite symposium, a conference or an information event**. You would like to offer your clients an **educational session** as part of the event.

### Problem

Many **doctors need to write and publish**, but have not learned how to go about these tasks in a structured way.

### Solution

In my short talk '**How to Write a Paper**' your clients can get to know the basics of scientific writing and learn about the keys to successful publishing.

### Include Your Company Portfolio

In the talk, I use sample texts from published papers. If you like, I can adapt the talk to reflect your corporate identity by using **sample texts from publications about your products**.

**Language:** German or English

**Duration:** 1-3 hours, as needed

**Speaker:** **Dr. Eva Müller**

*Scientific author:* Writer of publications, research and project reports in science and medicine

*Writing coach:* In-service training in writing at universities, research centres and hospitals in Austria and other countries

*Book author:* 'Schreiben in Naturwissenschaften und Medizin', UTB-Verlag
